Chasewood Learning is piloting a new STEM based afterschool class at The STEM Partnership School!!

In this exciting class children learn programming essentials with Scratch, a programming language developed by MIT. It allows children to program their own interactive stories, games and animations. It encourages systematic reasoning, creativity and helps them to work collaboratively.

For more information go to: https://scratch.mit.edu/parents/

Thursdays afterschool, May 7– May 28 (3:15pm-4:15pm), 4 weeks
Cost: $35 per student (pilot pricing)
Grades 3-8
Since this is a pilot, space will be limited
Registration is at www.chasewoodlearning.com. Click on LOCATIONS tab.
Registration opens, May 2\textsuperscript{nd}, 8am
First come first serve
