7. Information/Presentations/Discussion

7.1. John C. Dunham STEM Partnership School Report

7.1.1. School Improvement Plan

Goals number 1 and 2 changed, these goals increase since students previously exceeded the expectations.
Arin Carter also mentioned reaching out to other schools implementing a STEM program and investigating how they measure student success.

7.1.2. School Evaluation

The feedback that was asked to students and teachers was comprised of 3 questions:
What are the benefits of STEM?
How do we measure the benefits of STEM?
What are the next steps?
Arin Carter reported that the benefits were the collaboration among students, the voices, and the real world connections, among others. The way this was measured was by surveys and focus groups with parents, students, teachers, faculty and partners. Arin Carter shared a few student comments from the surveys. She will share all the result of this evaluation with the districts.
Dr. Sherrick also highlighted the positive results from the Innovation Engineering program from last summer, STEM students showed growth specifically when working in teams.

7.1.3. Professional Development

The Board discuss the goal of reaching to the districts with professional development from STEM, how to bring teachers from STEM to the districts and what the impact of such action will be.
They also discussed the possibility of bringing the concept of STEM partners back to the districts, how to do this efficiently and leverage the added value of partners to make partnerships more doable in large scale.

7.1.4. Parent Advisory Council

Arin shared that she held the first PAC meeting, and it was very productive. The next meeting is on November 20th. Arin agreed to share the minutes from the meetings with the Governing Board members.
7.1.5. Extracurricular Activities

The STEM School had an enrollment 188 students total in extracurricular activities, impacting 109 students total. The board suggested to increase the offerings to allow for more diversity, with the goal to increase the amount of students participating in extracurricular activities. Arin Carter mentioned the challenge with transportation after school for students enrolled in clubs, and Dr. Sullivan suggested doing such clubs during lunch time.

7.1.6. Upcoming Teacher Vacancies for 2018-19

There was significant discussion regarding the upcoming vacancies and the process in which teachers are chosen to come to teach at STEM. Suggesting candidates to shadow some of the teachers at STEM. Dr. Sullivan would like to revisit the agreement for the selection process. The Board also agree to revisit the language since the needs of the school and the districts have changed. They highlighted that there is not section in the agreement that prevents a teacher from reapplying for a position at STEM, but it is important to take in consideration union agreements. The board also discussed how to rethink the integration back to the districts and the needs of both, once a teacher finishes a tenure at STEM.

8. Adjourn

Dr. Sullivan motioned and Ms. Kincaid seconded to adjourn. Ayes: (5) Sullivan, Sherrick, Craig, Kincaid, Hichens Nays: (0)
