

Have you thought of an idea for a new invention?  
Are you interested in learning the language of innovation?

# Michael J. Birck Innovation Engineering Program

*Coming Summer 2017*

**Offered for Students Entering Grades 9-12**

Our summer classes will focus on the design process cycle and interpersonal skills. You'll work with AU professors and industry professionals to gain experience and develop an understanding of STEM careers.

## Summer 2017 Courses:

### » Leading Design

**EGR1500: Introduction to Engineering Design I**  
*2 undergraduate credits*

June 12-30 | Monday-Friday, 8:30-11:30 a.m.
