

CATERPILLAR INC.

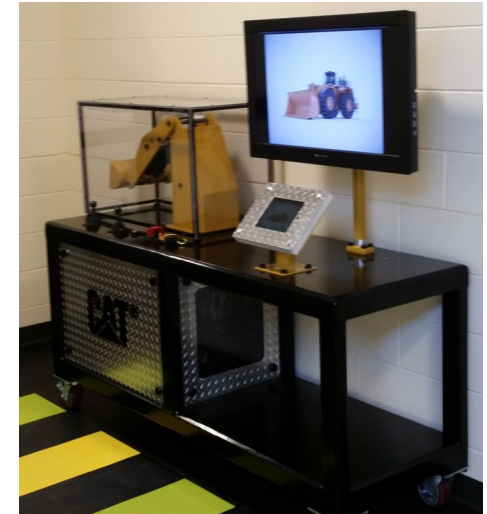

WHO WE ARE

Our Mission: to enable economic growth through infrastructure and energy development, and to provide solutions that support communities and protect the planet.

Our Strategy: to provide work environments, products, services and solutions that make productive and efficient use of resources.

HOW WE SUPPORT THE JOHN C. DUNHAM STEM PARTNERSHIP SCHOOL

Caterpillar supports the John C. Dunham STEM Partnership School by providing real-world connections to the school's lesson plans. Additional support is also provided to help develop lesson plans by individual engagement and access to a wide spread network with various expertise. The Caterpillar STEM cart was developed to provide hands on experience.

HOW WE USE STEM

STEM is applied at Caterpillar to improve the sustainable performance of our products, services, solutions and operations. We believe sustainable progress is made possible by developing systems that minimize the economic, social and environmental costs of ownership, as reflected in our sustainability principles.
